SUMMARY

Professional with a Bachelor's in Data Science and expertise in full-stack engineering and machine learning. Proficient in Python, SQL, JavaScript, and Java, with hands-on experience building scalable software on AWS and DigitalOcean, engineering real-time data pipelines, and delivering data-driven insights.

EDUCATION

Worcester Polytechnic Institute (WPI)

Bachelor of Science in Data Science | Minor in Management Information Systems

Worcester, MA

Graduated May 2026

TECHNICAL SKILLS

Languages: Python, SQL, R, C++, Java, JavaScript, HTML/CSS, TypeScript, German, Racket, MATLAB

Tools & Frameworks: Tableau, Flask, Django, Pandas, NumPy, Scikit-learn, Git, React, Excel, Apache Spark, Matplotlib, GitHub, AWS

Concepts: Predictive Modeling, API Integration, Business Intelligence, Cloud Infrastructure, Machine Learning, Generative AI

AWS Certifications: AWS Cloud Quest: Cloud Practitioner - Training, AWS Cloud Quest: Generative AI Practitioner - Training

IBM SkillBuild Certifications: Data Fundamentals, Enterprise Data Science in Practice, Machine Learning for Data Science Projects

PROFESSIONAL EXPERIENCE

Quickest Estimations Incorporated | Software Engineer/Web Developer Intern

Worcester, MA / June 2025 – October 2025

- Developed and deployed responsive web interfaces using HTML, JavaScript, SQL and Cloud infrastructures, serving 5 franchises
- Introduced backend functionality with high-quality code, integrating APIs and managing 3 databases to support process operations
- Collaborated with a cross-functional team to deploy scalable software solutions, completing 10 high-quality development cycles

Ploutus | Marketing and Data Analytics Intern

Remote / December 2024 – June 2025

- Cleaned and reconciled data from Fortune 1000, S&P 500, and university lists to improve reliable client targeting strategies
- Created financial and retirement planning content through social media posts using industry research, educating over 1,000 users
- Audited financial data of target companies to identify opportunities for 401k plan adoption supporting business development

Beaver Meadows | Golf Course Attendant

Phoenix, NY / May 2020 – August 2024

- Delivered excellent customer service by assisting guests with bags and answering general inquiries to ensure a positive experience
- Supported course operations by monitoring pace of play, communicating with guests, and reporting issues to management
- Demonstrated reliability and professionalism by consistently arriving on time for early-morning and weekend shifts

Chick-fil-a | Hospitality Team Member

Liverpool, NY / June 2019 – December 2021

- Delivered high-quality customer service in a fast-paced environment by assisting guests and ensuring a positive dining experience
- Processed customer orders and cash transactions accurately while maintaining efficiency during high-volume periods
- Collaborated with team members to maintain cleanliness, organization, and smooth daily operations

PROJECTS

Global Investment Data Pipeline | Mapping Global China

Remote / August 2025 – May 2026

- Communicated with an international organization to track Chinese investments overseas, and other technological projects
- Implementation of real time data ingestion using API's and validated 901 different types of data into one centralized storage
- Launched a data pipeline on DigitalOcean to scrape over 258 Chinese companies' investment data and connect it to RAG chatbot

AWS Lab | Amazon Web Services Training and Certification

Remote / November 2025

- Built secure AWS infrastructure with VPCs, IAM policies, multi-AZ setup, EFS, RDS backups, and an Auto Scaling Group
- Established EC2 instances, enabled S3 static hosting, and created DynamoDB tables with dynamic schemas and query operations
- Compared Bedrock models, created a Bedrock Agent assistant, deployed models in SageMaker, and implemented vector search

YelpApp | WPI

Worcester, MA / March 2025 – May 2025

- Engineered a relational database using SQL, creating tables, relationships, and constraints to efficiently store and manage data
- Invented a user-friendly interface through software engineering to interact with the database, enabling data manipulation
- Tested database queries and interface functionality, improving data retrieval speed by 5% and ensuring accurate operations

Walmart Demand Casting | WPI

Worcester, MA / October 2025 – December 2025

- Evaluated demand trends across multiple customer demographics using Tableau, identifying patterns in purchase behavior
- Conveyed and preprocessed raw sales data with Tableau Prep Builder, handling over 1,200 missing values to ensure veracity
- Designed an interactive dashboard revealing that certain age groups purchase clothing 200% more than the next highest group

ACTIVITIES & LEADERSHIP

Treasurer | Brazilian Student Association | WPI

Worcester, MA / April 2025 – April 2026

- Secured budget of \$37,235 for 2025 Fiscal Year and fund requested/received \$25,000 for 2025 National SHPE Convention
- Headed planning for transportation, lodging, and registration to 2025 National SHPE Convention
